

Embrace Your *SHIFT*show! It Keeps Getting Better

Walk through life, every day is new beginning.
Shine your light, it's a day and the world is waiting.
Move along to the song singing in your soul,
feel the beat... clap your hands, let it take control,
All you need, all you want... are you ready to find your way...

Every day is a new day,
And everything's going your way,
And you wanna make it last forever,
keep it together 'cause it keeps getting better!

Walk through life, move ahead to your destination.
Shine so bright, be the light of a new creation.
If the world is a stage, then it's off to show.
Seven, eight, nine, ten, ready set, let's go!
Turn it on, turn it up, are you ready to find your way...

Every day is a new day,
And everything's going your way,
And you wanna make it last forever,
keep it together 'cause it keeps getting better!

Feel the sun upon your shoulders...
Find the strength to make you bolder...
Let each moment take you higher, higher...
And higher, higher and higher than you've ever been before!

Walk through life, every day is new beginning...

Every day is a new day,
And everything's going your way,
And you wanna make it last forever...

Every day is a new day,
And everything's going your way,
And you wanna make it last forever,
keep it together 'cause it keeps getting better!

It keeps getting better...
